An exceptional PSL opportunity

Travers Smith is seeking a high-calibre Professional Support Lawyer who will become central to the work of the Banking Group.

In addition to keeping fee earners up to date with legal developments, the role will involve training (internal and client-facing) and other knowledge management projects. The right candidate will be given the opportunity and the support to develop the role.

You will be a mid-level to senior banking lawyer with excellent finance experience including, in particular, leveraged and real estate finance. Whilst helpful, PSL experience is not a prerequisite; though you will need to demonstrate technical expertise, innovative ideas and ambition.
